

Adventure - Portable Refrigerators - Steel

TB100 Steel Black

The Steel range of portable refrigerators is designed to withstand extreme weather and the rugged conditions you face when off-road driving.

The TB100 Steel model is characterized by its large and flexible load capacity. The thick insulation (50 mm), common to all models in the STEEL line, allows low electricity consumption.

The evolution of the Steel 2022 range includes retractable handles with a new design for improved portability, corner bumpers, even more resistant snap closures with a hole for the integrated security padlock, and new reinforced hinges with four anchor points. The power and temperature control panel is also completely new, allowing for easy and intuitive performance monitoring. The new black matte finish completely transforms the aesthetics of the entire line.

Technical features

Capacity (L)	97	Dimensions (HxWxD) (mm)	616x810x492
Net weight (kg)	31	Consumption (kWh/24h)	0,262
Voltage (V)	DC 12, DC 24	Power absorption (W)	85
Refrigerant gas	R134a	Climate class	SN-T
Temperature range (°C)	-18 +10	Certifications	CB, CE, E-Mark, EMC
