

## Power Management Redefined

### **NEW** Smart Battery Hub

The BEP Smart Battery Hub is a complete all in one battery management system.

Simplify battery management with remotely activated switches, automatic Voltage Sensitive Switching combined with emergency parallel functionality. Enclosed in a robust easy to install, Ignition Protected IPX7 enclosure.

Monitoring and transmission of battery voltages and full house bank state of charge over NMEA 2000 for integration with multi-function displays.

Options for two to six engine configurations available.

#### Features & Benefits

- Monitors and transmits all battery voltages, including house bank state of charge via NMEA 2000
- IPX7 and Ignition Protected
- Remotely operated switches via analog inputs or CZone®
- Ultra low power consumption
- Full mechanical override of all switches for safety and servicing

80-716-0030-00	Smart Battery Hub Twin Engine
80-716-0031-00	Smart Battery Hub Triple Engine
80-716-0032-00	Smart Battery Hub Temp Sensor (15m)

WORKS WITH  
**CZONE®**

Integrates with  
**FATHOM™**  
e-power system
